

WASCOE COUNTY OFFICIAL PRESS

C. FOWNING, EDITOR AND PROPRIETOR

WEDNESDAY, JUNE 10, 1877.

THE EUREKA "SENTINEL."

It is gratifying to notice the friendly manner in which our State exchanges are greeting the Eureka Sentinel on its entrance of the thirteenth volume. If any paper is deserving of the good things said of it the Sentinel surely is, and Eureka may well be proud of the paper. No town of its size on the Coast can boast of such an able advocate and representative, and we hardly know which has been the greatest benefit to the town—its mines or its paper. The one has produced millions in money, but for the other, that money would have not been of as much benefit; for upon every occasion the Sentinel has placed the town and its mining interests in a proper light before the country, and those who have read it certainly were peculiarly benefitted. Hence the greatest good to the greatest number has been the result; consequently we see Eureka the leading town and camp of the Great East, and the second place of importance in the State. This is a great admission for us to make—we who have so long been the Clear de Leon of Reno, but a strict regard for truth compels us to. Not that we do not expect to lap and pass Eureka soon, for we do, and we shall. The natural, hastened by artificial, progress of this town will soon place it next to Virginia, which position, when once attained, cannot be taken away. Still, at present, Eureka and the Sentinel, are ahead, due more to the latter's course than any other reason. Day and night it has been performing its mission silently yet effectively. Rather conservative, bitter though at times, publishing excellent telegraphic dispatches, spicy with locals, containing well selected miscellaneous reading matter, and neat in its typographical appearance, the paper altogether commanded the hearty patronage with which it has been continually blessed. Its future is easily read. It will not be long before it will occupy to Eastern Nevada the position now accorded the Enterprise in Western Nevada. The people will find it to their advantage to assist it up the ladder.

THE 1750-FOOT LEVEL.

The chief hope of the Comstock at this time seems to center in the new level of the bonanza mines. The 1650-foot level is where present dividends are coming from. It is the next level, however, that is to make or break the market. The 1750-foot level is being opened from two directions, besides which a double winze is going down from the 1650. This winze has just been started and at last accounts had progressed 15 feet all the way in rich ore. The bonanza has never before been pierced to so great a depth as is now revealed in this winze. Hence the great interest that is awakened by the present operations. It is estimated that it will require two months to get the new level in working shape. If the 1750 level pans out rich we may confidently look for an improved stock market. Another one hundred feet of good ore would send Consolidated Virginia and California back into the sixties and seventies and other stocks would, of course, advance proportionately. The stock dealing public must necessarily feel a deep interest in the developments of the next 60 days in the lower workings of the great bonanza. The above from the Eureka Sentinel is about correct. And we believe the 1750 will be O. K.

A telegram from Asia says there is nothing later than the evacuation of Olti by the Russians in their retreat to Penak. The Russians at Penak number 4,000 men and nine guns, while the Turkish corps which reoccupied Olti consisted of six battalions, two battle-ries and a thousand cavalry. The Russian and Turkish accounts agree that the cannonading at Kars is ineffectual and indecisive. A project is on foot for a demonstration of the workmen in honor of General Grant.

OSBURN & SHORNER have for sale the choicest of toilet articles, fancy soaps, extracts, colognes, etc. Hair and tooth brushes, beautiful moulding picture frames, etc., also all kinds of field and flower seeds.

MOST IMPORTANT ITEMS IN YESTERDAY'S DISPATCHES.

The Attorney-General has called upon the accounting officers of the Treasury for a copy of the accounts of Brigham Young, the Mormon leader, filed in the Treasury some twenty years ago, when he was the Indian Agent, appointed by the Government. These accounts are called for at the request of Howard, U. S. Attorney for Utah, who will examine them carefully in connection with the Attorney General. It is intimated that they will furnish important testimony against Young, and upon them a prosecution will be based for various illegal acts committed by him while acting as Indian Agent.

The existence is reported of a ring of speculators having in view a grab of an immense body of valuable timber and agricultural land on the bottom of the Klamath river. The U. S. Surveyor is said to be now in the field making the necessary subdivisions. Lumbermen are greatly excited over the prospect of the land going into the possession of private parties.

Upon Kasson's arrival in Washington, the mission to Austria, which it is understood he would have originally preferred had it been vacant when he was appointed Minister to Spain, was tendered him by the President and he has accepted it, and James Russell Lowell has been tendered and accepted the mission to Spain.

Governor Rice has received assurances that President Hayes will reach Boston on the 26th instant, and will remain in the city two days, attending the Harvard College commencement on Wednesday, and visit Providence on Thursday.

The State Legislature of New Hampshire has invited the President to visit Concord on his passage from Boston to Vermont.

On Saturday afternoon Harry Thayer, son of Frank Thayer, superintendent of the Julia mine, Virginia city, was drowned near the Alameda drawbridge, at the entrance to San Leandro Bay, while bathing. The body has not yet been recovered.

An immense fire is raging in the mountains between Los Angeles and Santa Monica, and has already burned over a thousand acres, destroying a number of dwelling houses, to gether with barns and other buildings. The people in the neighborhood have been fighting it constantly since Saturday afternoon, but strong winds, together with the scarcity of water, have rendered their efforts futile. It is now swooping down upon the plains, and by tonight, if its progress is not stayed, it will have consumed a great deal of valuable property. Between four and five miles are now on fire, and the residents of the vicinity are exhausted and discouraged. No loss of life has yet been reported.

A Washington correspondent has the authority of President Hayes for stating that he is in favor of the re-monetization of the old silver dollar, and the adoption of a double standard as the best means of returning to specie payments, but has not determined to make any recommendations to Congress to that effect.

Senator Conkling, who has been in Washington for four days, procuring his passport for Europe through the subordinates of the State Department, as his relations with Evans precluded any personal intercourse with that gentleman. During Conkling's stay it is said by his intimate friends that he did not call at the White House, nor did he meet any members of the Administration, and further that he abstained entirely from recommendations of any nature in behalf of persons who seek Presidential favors, leaving himself free to oppose or support the President when Congress meets, as he may see fit.

The mines of Pottsville, Pa., are on fire and burning to considerable depth. The fire originated last Saturday from a blast which ignited the gas. An explosion followed, and considerable damage to walls and props ensued. It is believed seven gangways are burning and the fire is making rapid progress. A large stream has been turned into the mines. No miners were hurt by the explosion.

When a man is treating a dashing widow to ice cream, and sees his wife coming into the restaurant, about all he can do is to button his coat, hang to his chair and trust to Providence. —St. Louis Journal.

EDITOR JOURNAL:—It strikes me this little town is entirely neglected by our papers. Very rarely we see a reporter or an editor (except when out on a collecting tour) and yet we are entitled to some little notice occasionally. True, we don't outgrow our dimensions as some of our neighboring towns, still it might be well for you to know and let others know, that despite of the usual cry of "hard times," "stocks down," "freighting exceedingly low," and many other ailments that railroad towns are generally afflicted with, we

STILL MANAGE TO LIVE, And may say that there never was so much improvement in our town as presently. It appears as if there is a general strife to see who can out-do its neighbor, and should this strife continue, who knows but what some day this may be the county seat, at least during the Winter months. With due respect to Reno, still if comfort and ease of locomotion is to be taken into consideration, we would by rights be entitled to it those months. In way of local news we have but little to record. As usual some

LITTLE SIDE SHOW

Pays us a visit, and a good one for the kind treated our citizens Saturday night. The tight rope performance of a boy only eight years old was really excellent. As I am writing there is quite a

SURPRISE PARTY

Being given to Mrs. J. Velsir prior to her departure for Los Angeles, and according to usual custom in these cases, your correspondent may have to stroll in before long with a bottle of Boon in each pocket, for I do declare I am at a loss what else to take these hot days. Pray tell me, will this violate the rules of etiquette? In way of law and order it seems as if this community had resolved itself to be

VERY PEACEABLE.

Not a case of forgery or embezzlement in the last two months, and as for drunks, our tramps are either too poor, or else quality of whisky is better than at Reno. No business for officers, and after all if Dame Rumor is to be credited, Grass Valley, with her fame of getting away with the engine of a quartz mill from Virginia city, must give up her laurels to this burg, as it is a real fact one of our solid men very nearly got away with a blacksmith shop and corral; thanks to the efficiency of our officials the plan was frustrated. Our friend Chamberlin ought to be congratulated on his success in finding in one of our China wash-houses several empty cigar boxes—the remnant of his stock. As for the cigars, "me no sabe." I believe I am imposing on you with this nonsense. Allow me in conclusion to beseech the blessing of Dave McFarland in behalf of our poor citizens who were necessarily compelled to stray off to Reno to serve on jury duty. May Judge Richardson in his mercy deal out justice to them according to the length of their purses, and may Sheriff Lamb have mercy on their "dry souls" should they unfortunately get into close quarters. Jack.

BARNETT BROS. have a nice assortment of ladies' linen suits which they now offer at greatly reduced prices.

PARASOLS in all the latest styles at astonishing low prices at Barnett Bros.

TWENTY-FIVE cents entitles you to a first-class hair cut at Morris & Franklin's Palace Barber Shop.

Do you want choice perfumes whose aromatic fragrance fills the air, at low prices, call at Hoole's.

Go to Morris & Franklin's and get a stylish hair cut or shampoo for 25 cents.

Go to Coleman's for a hot bath, in Barnett's block, Virginia street.

CHARLES COLEMAN, the well known artist, has returned to Reno and has fitted up the finest bath house and barber shop in the State.

TWENTY-FIVE CENT dress goods reduced to 10 cents a yard at GREY & ISAACS.

THE ALTAR.

GOOGEL-ELLIOTT—In Reno, June 12, 1877, by Chas. Richardson, J. P., Mr. Wm. Googel to Miss Francis Elliott, both of Reno. [A host of friends were present in the International Hotel parlors on this occasion; all were happy, and the young couple received the sincere congratulations of those present. May they never regret the new relations they have assumed.]

TOMB.

GRANITE—In Gold Run, California, June 20, 1877, Louis E. Infant son of Laura E. and Annie Granda, aged 1 year and 19 days.
